Product information *Vibraphone*

PSV 2001

3.0 octave F3- F6 Aluminum Alloy

Performing Standard Series

A complete series of mallet instruments designed for the budget minded students, orchestras and ensembles. These instruments feature the same selected bar materials and carefully handcrafted resonators, which are used for the Custom Classic Series. The frames of these instruments are manufactured using European Ashwood and high grade steel components. Height adjustment of these models can be executed manual very easily.

Performing Standard 2000 Series | PSV2001

The 2000 series vibraphone provides professional sound and performance at a budget price. Features include three octaves carefully tuned satin silver finished bars.

The instrument is height adjustable and extremely easy to transport. Supplied with a variable speed motor and built in control unit.

Floating Bar Suspension | FBS

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

Endpieces

To realize the most stable and precise construction, rails and endpiece are very carefully designed to make that perfect match. All end pieces are made out of first choice solid Ash wood, carefully shaped and CNC machined.

Inside the end piece a cut out chamber gives room for a solid special metal sheet for perfect and sturdy mounting of the rails.

To achieve perfection in construction and quality we always keep an eye on the natural look of the mallet instruments. A little different but perfectly designed and engineered. Vancore stands for innovation!

Bars | Natural Anodized Aluminum

Material: *Aluminum Alloy*

Bar Sizes: 45x12 mm

Height adjustment

86 cm
109,5 cm

Manual Height Adjustment

Height Adjustment of these models can be executed manual very easily.

Casters

Double casters with brakes | Heavy duty
